ABOUT ME

Front-end Developer with 4 years of hands-on experience in developing and deploying web applications. Have a proven track record in crafting multiple highly-scalable applications using dierent tech stacks. Highly-skilled team player able to collaborate with other developers, engineers, and software testers to deliver remarkable products within deadlines and budgets.

WORK EXPERIENCE

01/08/2022 – 28/08/2022 Banja Luka, Bosnia and Herzegovina
LEARNING SUPPORT MENTOR LANACO

- Provided guidance and mentorship to a group of interns throughout their participation in an intensive internship program focused on React.js and TypeScript.
- Designed and facilitated structured learning sessions to introduce interns to key concepts, best practices, and advanced techniques in React.js and TypeScript development.
- Created hands-on coding exercises and projects to reinforce learning objectives and foster practical application of skills acquired.
- Offered personalized assistance and feedback to interns, addressing their questions, concerns, and challenges in understanding and implementing React.js and TypeScript code.

01/08/2021 – 28/08/2021 Banja Luka, Bosnia and Herzegovina
INTERN LANACO

During my internship program, I had the invaluable opportunity to collaborate with a dynamic team to develop a React.js application within a tight 28-day timeframe. This immersive experience not only honed my technical skills but also imparted crucial lessons in teamwork and perseverance. Each day presented new challenges, fostering an environment where adaptability and dedication were paramount. Through this intensive project, I gained a deeper understanding of the importance of effective communication, collaboration, and collective effort in achieving our goals. This experience not only enhanced my proficiency in React.js development but also instilled in me a strong sense of resilience and determination to excel in collaborative environments.

01/01/2022 – 01/01/2023 Remote
FRONT-END DEVELOPER CREWNEW

Developing captivating and resilient web applications by leveraging React.js, TypeScript, and GraphQL.

Key responsibilities:
- Developing and implementing frontend components
- Designing and implementing backend functionality with GraphQL
- Collaborating with the development team
- Testing, debugging, and maintaining applications Ensuring code quality and best practices

01/03/2023 – 01/03/2024 Remote
FRONT-END DEVELOPER BSCRIPT

Developing intricate web applications entails leveraging the robust capabilities of Next.js and React.js, with a focus on harnessing Next.js's full potential for server-side rendering to create scalable software solutions.

Key Responsibilities:
• Crafting and integrating frontend components.
• Designing and deploying backend functionalities using GraphQL.
• Collaborating closely with the development team.
• Conducting thorough testing, debugging, and ongoing maintenance of applications.
• Upholding code quality and adhering to best practices.

20/10/2024 – CURRENT Banja Luka, Bosnia and Herzegovina
SOFTWARE DEVELOPER LANACO

Programming languages

Javascript | C# | PHP

Frameworks

React.js | Vue.js | Next.js | Typescript | Laravel | Angular | Node.js | Express.js | ASP.NET

Testing

Jest

Version control

Git

MANAGEMENT AND LEADERSHIP SKILLS

IT coordinator for an international course for QualityAssurance

As the IT Coordinator for an international Quality Assurance course, I assumed a pivotal role in ensuring the seamless integration of technology throughout the program. My responsibilities encompassed overseeing all IT-related aspects, from infrastructure management to technical support, with the overarching aim of providing participants with unparalleled access to resources and support. Central to my role was the development and maintenance of a dedicated course website, serving as a hub for essential information, resources, and communication channels. By meticulously managing IT operations and spearheading the creation of this vital digital platform, I aimed to empower participants with the tools and resources needed to thrive in their learning journey.

Member of the BEST student organization board in the role of an IT coordinator

As a dedicated member of the executive board of the BEST student organization, I served in the pivotal role of IT Coordinator, spearheading initiatives to enhance the organization's technological infrastructure and capabilities. Leading the IT team, I orchestrated a series of impactful workshops and seminars aimed at upskilling members and optimizing the IT aspect of our operations. Additionally, I assumed full responsibility for overseeing the development

and maintenance of all organization websites, ensuring they remained effective tools for communication and engagement. Through strategic leadership and collaborative efforts, my tenure as IT Coordinator contributed significantly to the advancement and effectiveness of the BEST student organization's IT initiatives.

IT coordinator for BEST Hackathon

In my role as IT Coordinator for the BEST Hackathon, I undertook the crucial task of orchestrating all IT-related aspects of the event. Collaborating closely with my colleagues, I played a pivotal role in conceptualizing and developing the event's website, ensuring it served as an informative and interactive platform for participants and stakeholders. Furthermore, I took on the responsibility of coordinating all activities surrounding the IT components of the hackathon, including technical infrastructure setup, software implementation, and troubleshooting support throughout the event. By effectively managing these critical IT elements, I contributed to the seamless execution of the BEST Hackathon, fostering an environment conducive to innovation, collaboration, and technical excellence.

IT coordinator for international course for Cyber Security

As the IT Coordinator for an international Cyber Security course, I assumed a central role in orchestrating the technological infrastructure and support essential for the success of the program. Tasked with overseeing all IT-related aspects, my responsibilities ranged from designing and implementing secure network configurations to providing technical support for course participants. In addition to ensuring the smooth operation of IT systems throughout the duration of the course, I spearheaded the development of a comprehensive course website, serving as a central hub for resources, communication, and collaboration. By leveraging my expertise in cybersecurity and IT management, I aimed to create a secure and seamless learning environment conducive to the exploration and mastery of cyber defense strategies and techniques.
